

OEAA

The Ohio Extension Agents Association (OEAA) is the state professional association for Extension field staff. Membership is open to District Extension Specialists, County Extension Agents and Extension Program Assistants with a minimum of a bachelor's degree.

OEAA has two main objectives. One is the professional improvement of its members. The other is the improvement of the Extension organization as an educational delivery system for county, state and federal Extension programs.

There are six standing committees that give guidance and direction to the issues of interest to OEAA: personnel, policy, professional improvement, program, public relations and recognition.

Contact Deanna L. Tribe, OEAA President, South District, 740-286-2177; e-mail: tribe.1@osu.edu for more information about the Ohio Extension Agents Association.
