Popular Media

Mass Media such as newspapers can often initiate awareness about current ideas on food security at regional, national and international levels. *The New York Times* publishes a Science Section every Tuesday. *Yahoo! News*, on the Internet, has daily science and world headline articles that are taken from Reuters Press Agency and other sources. General themes involving food security can be researched more intensely and individual student opinions developed in preparation for student discussion papers.

BBC News (*Audio and Video News available.*)
<http://news.bbc.co.uk/>

Voice of America News
<http://www.voanews.com/index.cfm>

Reference Books & Resources

High School and College Textbooks can be used for background information on relevant scientific subjects, for example, nutrition, public health, molecular biology, genetics, botany, agriculture, sociology, ecology and geography.

Wikipedia (Online Encyclopedia) (*Search for Green Revolution, Norman Borlaug, Sustainable Agriculture, World Food Prize Laureates, etc.*)
